Day to Day: The purpose of this markdown is to determine the next Days sampling. Variables that can be adjusted: Gear.Sampled per station and time taken to sample gear (lines 77-80), Ship Speed (line 83). Lastly, station order matters in terms of distance (line 52).

*Note: Be sure to properly enter the vector values of both “CompleteScenL” and “StaTDL”, as they are needed to determine proper station number.
